

Concrete & Water
Z E R O D I S C H A R G E
 for the Ready-Mix and Precast Industries

The BIBKO® Ready Mix Concrete Reclaimer is the key to increased production.

Designed for today's fast-paced world, the BIBKO® Ready Mix Reclaimer is a revolution in itself. At the heart of this profit-driven reclaimer, its ingenious design combines simplicity of use with outstanding performance. Quiet to run, it operates with smoothness, efficiency and precision. Built for results, its innovative separation system provides optimal charging, reclamation, discharging and cleaning.

BIBKO® 1000 CONCRETE RECLAIMER

Processing 10 Yards Per Hour

Typically 1-5 Mixer Trucks

PARTNER IN YOUR SUCCESS

At BIBKO®, we make it our business to understand your business. That is why we offer our customers one of the industry's widest selections of innovative products and services for concrete reclaimers. We consider it our responsibility to listen to our customers and add value to every aspect of their operations from application expertise and training to overall service capabilities.

From process water management and storage to total 100% concrete recycling of concrete production, BIBKO® will thoroughly analyze and evaluate the project in order to build and deliver the most practical and economical system possible.

BIBKO® 2000 CONCRETE RECLAIMER

Processing 25 Yards Per Hour

Typically 5-20 Mixer Trucks

GOOD DESIGN & ENGINEERING IS GOOD BUSINESS.

With its innovative approach to design, BIBKO® integrates applied engineering, industrial architecture and innovative thinking. Our design processes are backed by a precise approach to finding the right solutions.

With our problem solving frame of mind we are constantly proving that good design is good business. Throughout the analysis, research, development and implementation, you can rest assured that everything is set in motion for an optimal result.

BIBKO® 4000 CONCRETE RECLAIMER

Processing 40 Yards Per Hour

Typically 15-80 Mixer Trucks

FOR MAXIMUM RETURN ON INVESTMENT. THE CUSTOMER'S NEEDS CREATES OUR INNOVATION.

BIBKO® engineers are invariably applying their scientific and technical knowledge to achieve maximum results. Whether the task is to build a new concrete reclaim system or to modernize an existing one, our team of experienced engineers will reliably find optimal solutions to specific problems or will make efficient improvements to existing facilities.

Optional Modules

Expandable Galvanized Slurry Tanks

Charging Buffer - 5M and 10M

Concrete Pump Washout "PDC" module

Concrete & Water
Z E R O D I S C H A R G E
for the Ready-Mix and Precast Industries

BIBKO® designs **Precast Concrete Reclaimers** according to the latest technology to ensure full control of the individual plant requirements. By using industry standard monitoring equipment, the producer is capable of reducing the amount of fresh water required.

BIBKO® 1000 CONCRETE RECLAIMER - Processing 10 Yards Per Hour

BIBKO® 1000 with two PDC charging systems

Grade level BIBKO® 1000

PDC Pump Discharge Conveyor charging
BIBKO® 1000

SERVICES FOR OPTIMAL PERFORMANCE

BIBKO® offers an integrated set of services that allow us to target your needs, determine the costs involved, and offer applications that meet all of your specific requirements.

- * Reclaiming and Water Management Design
- * Existing Concrete Batch Plant Optimization
- * Engineering
- * Manufacturing
- * Equipment Erection and Installation
- * Commissioning
- * Turnkey Solutions

All components selected are evaluated for extended service in the demanding environment of concrete plant operation. The customer benefits from our understanding of his needs.

From the design and specifications stage to the engineering, manufacturing, installation and commissioning of a concrete reclaimer, BIBKO® directly controls each and every step of the project through a modular, integrated approach. By staying in close contact, from the very first meeting through each service call, BIBKO® makes sure that the outcome will be totally personalized and 100% satisfactory. This makes the difference between merely adequate results and exceptional performance.

The enviable reputation BIBKO® Concrete Reclaimers enjoys today is largely due to a totally dedicated team that has consistently met the needs of our choice clientele - a reputation in which we take great pride in.
